

# Building Your Myth Busting Lab with Power BI

julie koesmarno (@MsSQLGirl)

LobsterPot Solutions

19 July 2014

~~Don't~~ try this at home

Failure is an option

Holy Crap, that's cool!

I reject your reality and substitute my own

What could go wrong?

Busted, Confirmed, Plausible

Myth #1:

*Sunday* Drivers

*Sunday*

# Myth #1: Sunday Drivers Are Dangerous!

# Myth #1: Sunday Drivers Are Dangerous!

# Myth #1: Sunday Drivers Are Dangerous!

PLAUSIBLE?

# Myth #1: Sunday Drivers Are Dangerous!

Saturday has higher fatalities  
and volume of driver incidents

We have not compared percentage  
of fatalities over volume of traffic

Myth #2:

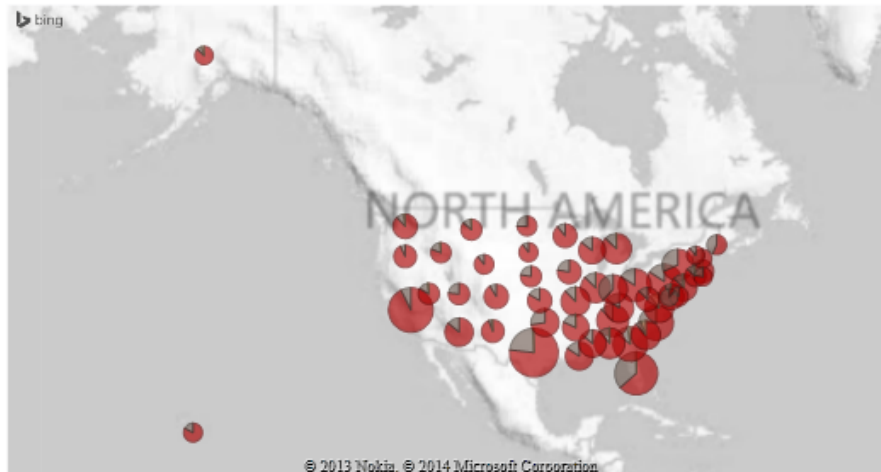

*Highway* Phobia

*Highway*

# Myth #2: Highway Phobia

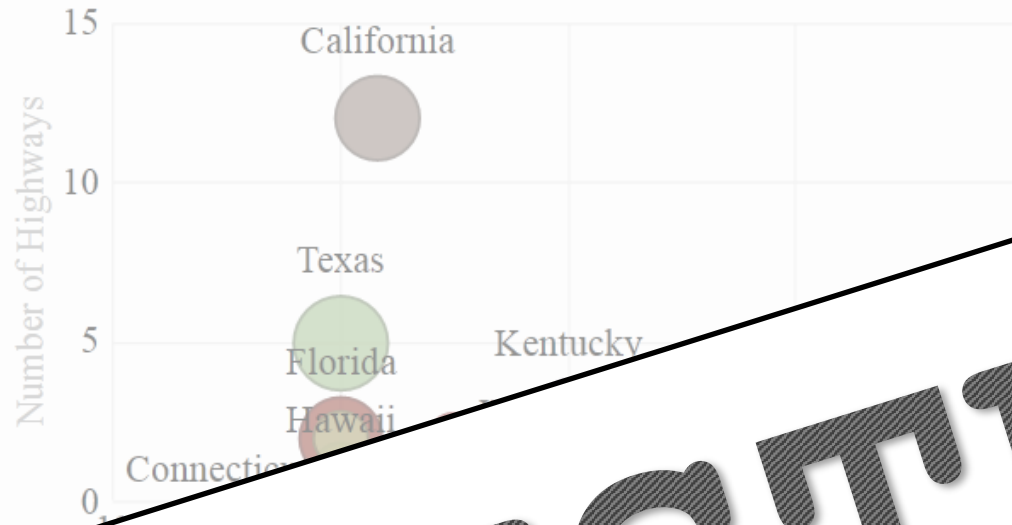

Count of ID by State, and Road Type

Injury\_Severity

- Fatal Injury (K)
- Incapacitating Injury (A)
- Injured, Severity Unknown
- No Injury (O)
- Non-incapacitating Evident Injury (B)
- Possible Injury (C)
- Unknown

## Myth #2: Highway Phobia

Highway

Not Highway

Unknown

CA, TX and GA have highest fatalities,  
and have either wide or more  
highways than other states

Further research on Fatalities over  
each Road Type Volume

Myth #3:

*Lunatic* drivers

*Lunatic*

# Myth #3: Lunatic Drivers

Fatalities\_in\_crash by Injury\_Severity, and Lunar Phase

Lunar Phase

- (Blank)
- First Quarter
- Full Moon
- Last Quarter
- New Moon

Person\_Type

- Bicyclist
- Driver of a Motor Vehicle In-Transport
- Occupant of a Motor Vehicle Not In- Transport
- Occupant of a Non-Motor Vehicle Transport Device
- Passenger of a Motor Vehicle In-Transport
- Pedestrian
- Persons In/On Buildings
- Persons on Personal Conveyances
- Unknown Occupant Type in a Motor Vehicle In- Transport

# Myth #3: Lunatic Drivers

Fatalities\_in\_crash by Injury\_Severity, and Lunar Phase

**BUSTED?**

Vehicle Not In- Transport  
Non-Motor Vehicle Transport Device  
Passenger of a Motor Vehicle In-Transport  
Pedestrian  
Persons In/On Buildings  
Persons on Personal Conveyances  
Unknown Occupant Type in a Motor Vehicle In- Transport

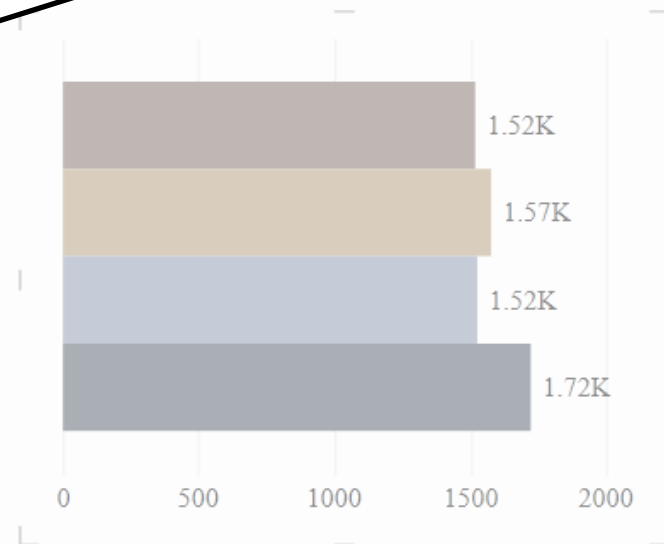

## Myth #3: Lunatic Drivers

Fatalities\_in\_crash by Injury\_Severity, and Lunar Phase

**PLAUSIBLE?**

Vehicle Not In- Transport  
Non-Motor Vehicle Transport Device  
Passenger of a Motor Vehicle In-Transport  
Pedestrian  
Persons In/On Buildings  
Persons on Personal Conveyances  
Unknown Occupant Type in a Motor Vehicle In- Transport

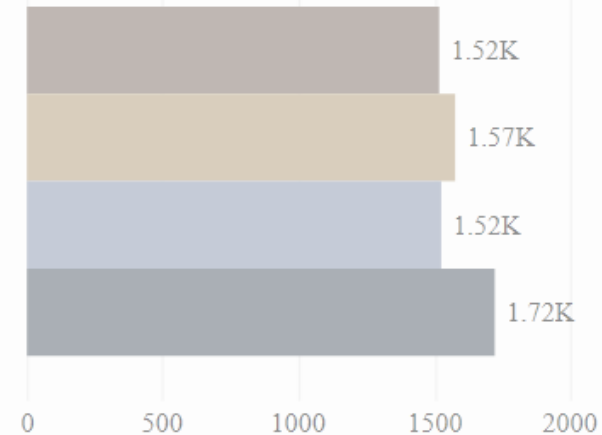

# Myth #3: Lunatic Drivers

Fatalities\_in\_crash by Injury\_Severity, and Lunar Phase

**CONFIRMED?**

Vehicle Not In- Transport  
Non-Motor Vehicle Transport Device  
Passenger of a Motor Vehicle In-Transport  
Pedestrian  
Persons In/On Buildings  
Persons on Personal Conveyances  
Unknown Occupant Type in a Motor Vehicle In- Transport

“Lunatic” related to Lunar phase.  
There are more fatalities around  
New Moon!

People avoid driving on Full Moon?
