Feedback Forms

Please fill out feedback forms and pass to your room helper before you leave the session

A bit about this session

It's an audience interactive session, where you will be asked to make a decision in certain situations. Answer using letter.

It's based on a roleplay scenario, where you're a new employee for a large UK corporation.

Various topics will potentially be covered, depending on what is chosen by yourselves.

All images used are from openclipart.org.

Your review

Your boss catches up with you for a quick review.

He's really pleased with how you handled the SQL Server issues, as well as all your other efforts relating to the ever changing Data Platform.

He's impressed by how keen you are to keep up with new technology, and your level of expertise.

He sees a bright future for you.
